Frameworks & Tools: React.js, Flask, Git, GitHub, AWS, DevOps, Software Testing, DSA

EXPERIENCE

Web Development Intern

March 2026 - April 2026

CodSoft

- Worked on full stack projects during the internship and gained practical exposure to frontend and backend development.
- Built stronger understanding of project execution, backend integration, professional communication, and real-world problem solving.
- [Internship Certificate](#)

PROJECTS

Samay Sutra Watch Store

React, Flask, SQLite

- Developed a full-stack watch e-commerce website with user login, product browsing, search, filters, cart management, checkout, and order history.
- [GitHub repo](#) | [Live Demo](#)

ProjectFlow

React.js, Flask, SQLite

- Built a project management application with project creation, task tracking, teammate assignment, comments, and drag-and-drop progress workflow.
- [GitHub repo](#) | [Live Demo](#)

Habit Tracker

React, Python, Flask, SQLite

- Created a full-stack habit tracker for adding habits, tracking daily completion, monitoring streaks, and managing progress in a simple interface.
- [GitHub repo](#) | [Live Demo](#)

Personal Portfolio Website

React.js, CSS, JavaScript

- Designed and developed a responsive personal portfolio website to showcase skills, projects, internship experience, certificates, and contact details.
- [GitHub repo](#) | [Live Demo](#)

EDUCATION

B. Sc. (Computer Science)
